UNITED STATES FOREIGN TRADE

SUMMARY REPORT FT 950-I

SEPTEMBER 1960

BUREAU OF THE CENSUS

Robert W. Burgess, Director

## IMPORT TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the decrease in United States general imports from \$1,228.1 million in August to \$1,160.3 million in September reflected decreases in imports from all areas except Western Europe. Changes in the dollar values of imports from all areas from August to September are as follows: Canada, from \$260.6 to \$238.0 million; Latin American Republics, from \$291.0 to \$280.6 million; Western Europe, from \$300.5 to \$316.6 million; and "all other countries", from \$376.0 to \$325.1 million.

The Bureau also stated that from August to September imports from sterling area countries decreased from \$200.6 to \$194.6 million, but those from 0.F.E.C. countries rose from \$292.6 to \$310.0 million. Decreases were reported in imports from all continents except Europe and Africa.

Imports from Asia fell from \$262.0 million in August to \$216.2 million in September due chiefly to decreases in imports from the individual countries of this continent as follows: Republic of the Philippines, from \$35.2 to \$19.5 million; Japan, from \$109.9 to \$96.7 million; Federation of Malaya, from \$19.1 to \$12.4 million; Republic of Indonesia, from \$22.6 to \$17.3

million; and Kuwait, from \$12.5 to \$8.0 million. The drop in imports from North America from \$367.8 to \$347.4 million reflected lower levels of imports from Canada, from \$260.6 to \$238.0 million; Netherlands Antilles, from \$24.7 to \$19.0 million; and Cuba, from \$11.7 to \$7.9 million. However, imports from Mexico increased from \$33.1 to \$44.0 million. Imports from South America decreased from \$223.1 to \$208.1 million largely as a result of decreases in imports from Chile, from \$24.6 to \$15.7 million; Peru, from \$19.5 to \$16.0 million; and Brazil, from \$57.5 to \$54.4 million. Lower levels of imports from Australia, from \$16.7 to \$9.7 million, were responsible for the decrease in imports from Australia and Oceania, from \$28.2 to \$21.7 million.

Imports from Europe rose from \$307.0 million in August to \$323.0 million in September due to increases in imports from the individual countries of this continent as follows: Netherlands, from \$16.1 to \$24.0 million; West Germany, from \$63.6 to \$71.3 million; Belgium and Luxembourg, from \$23.3 to \$29.8 million; United Kingdom, from \$69.1 to \$73.8 million; and Sweden, from \$9.1 to \$12.6 million. These increases were partly offset, however, by decreases in imports from France from \$29.1 to \$22.8 million, and Italy from \$34.4 to \$28.6 million. Imports from Africa increased slightly from \$40.0 to \$43.9 million.

## EXPLANATION OF STATISTICS

COVERAGE: Import statistics include merchandise imported by government agencies as well as by private importers, but exclude American goods returned by the United States armed forces for their own use. United States trade with Puerto Rico and United States possessions is not included in this report but the import trade of Puerto Rico with foreign countries is included as a part of the United States import trade. Merchandise shipped in transit through the United States between foreign countries is not included in import statistics.

COUNTRY DEFINITION: Though the country which should be reported in the statistics as the country of origin is defined as the country where the merchandise was grown, mined or manufactured, the country actually shown in the statistics may in an number of cases represent some other country, such as the country of purchase, lading or the country in which mixed lots of various origin are consilidated. It follows, therefore, that imports from such merchanting or transshipment countries are likely to be overstated and imports from other countries correspondingly understated.

VALUATION: Import values are, in general, based on market price or selling price, and are, in general, f.o.b. the exporting country. They exclude United States import duties. None of the values have been adjusted for changes in price level.

EFFECT OF SAMPLING: Formal entry shipments valued less than \$100 and informal entry shipments valued \$250 or less (less than one percent of total import value) are estimated by sampling. The estimated values are included in the area, continent, and country totals in the table. The variability in the import figures due to sampling is no more than three percent or less than \$50,000. For further information regarding the sampling procedures, see the "Explanation of the Sampling Procedure for Estimating Low Valued Imports" in the foreword of Report No. FT 110. The largest variation from rounding of figures is \$50,000.

Further information regarding coverage, country definition, valuation, etc., is contained in the "General Explanation" in foreword of Report No. FT 110. For complete statement, see the foreword in Foreign Commerce and Navigation of the United States.

## UNITED STATES GENERAL IMPORTS, BY COUNTRY OF ORIGIN: SEPTEMBER 1960 AND SELECTED PERIODS

(In millions of dollars. N.c.c. indicates not clsewhere classified. General imports are a total of imports for immediate consumption plus entries into bonded warehouses. Figures for 1960 are as originally issued and have not been revised to include published corrections. Figures for 1959 include revisions published with the December 1959 reports, or earlier, but do not include revisions published during 1960. See "Explanation of Statistics" for information on sampling procedures and effect thereof on the data shown.)
